Number of Schools	6					
Number of students	6332					

# LIGHTS

1. Reflective Culture & Examen
2. SEN Students for innovation and compassion
3. A caring school culture from Jesuit education. Formation of the Person.
4. Promotion of Self-directed learning
5. Networking and Learning Projects among our Six Schools. Global network 'internationalizes' the schools
6. Decreasing Student Population pushes the school and some teachers to be more creative and soul searching
7. UAPs confirm what some of our schools have focused on

# Challenges

1. **Competitiveness and the Temptation of Success**
2. **Increasing presence of SEN students affective school image and development**
3. **Some teachers resist to buy in. They discount or even counter our efforts, e.g., Examen and Appraisal**
4. **Good ideas without good know how or good practices, e.g., self-directed learning, Caring for a Common Home**
5. **Decreasing student population as a resource stress, limiting development, staff morale problem**
6. **Staff development, Middle Managers, and Succession Planning – easier to criticize than to take on responsibility, Magis vs. Mediocre**
7. **Reality vs. Virtual Reality – virtual reality more attractive**
